

Karthik Kumar Raju

Security Analyst

☎ +91 8550868583 ✉ karthikumaraju@gmail.com 🔗 linkedin.com/in/karthikumaraju 📍 Bangalore, India

PROFESSIONAL SUMMARY

Results-driven Security Engineer with hands-on experience in Web Application Penetration Testing (WAPT), Network VAPT, API security assessments. Proficient in uncovering critical vulnerabilities (SQLi, XSS, CSRF, Broken Authentication, OWASP API Top 10) and delivering actionable remediation reports. HackTheBox Pro Hacker with industry-recognized certifications including AZ-500, CREST-aligned CNPen, and Google Cybersecurity Professional. Eager to contribute to Network Intelligence's offensive security services — including Continuous Red Teaming, Vulnerability Management, and Breach & Attack Simulation.

PROFESSIONAL EXPERIENCE

Reinfosec

Freelancer

Remote (Freelancer)

February 2024 – Present

- Conducted end-to-end VAPT on critical web applications and internal/external network infrastructures for private sector clients, identifying high-severity vulnerabilities and delivering detailed remediation reports.
- Performed web application penetration testing covering OWASP Top 10 attack categories including injection flaws, authentication bypass, and sensitive data exposure.
- Performed LAN/WAN infrastructure penetration testing, exposed services, and lateral movement vectors to identify internal network vulnerabilities.

Reinfosec

Jr. Security Intern

Bangalore, India

September 2024 – February 2025

- Assisted in WAPT and VAPT engagements, helping identify vulnerabilities such as SQLi, XSS, and CSRF in web applications and APIs.
- Documented vulnerability findings and supported remediation reports with actionable recommendations.
- Participated in internal security assessments and gained hands-on exposure to penetration testing tools and methodologies.

Association For Cybersecurity

Security Researcher

Remote (Freelancer)

March 2024 – January 2025

- Conducted in-depth security research on emerging web and network exploitation techniques; presented findings to the community to strengthen defensive capabilities.
- Developed strategic learning materials educating students and freshers on cybersecurity fundamentals, emerging threats, and defense best practices.

TECHNICAL SKILLS

Penetration Testing: Web App VAPT, Network VAPT, API Pentesting, Active Directory Attacks, Privilege Escalation, Post-Exploitation

Tools: Burp Suite, Metasploit, Nmap, Wireshark, Frida, Postman, Gobuster, Nikto, SQLmap, Impacket

Frameworks & Standards: OWASP Top 10, OWASP API Security Top 10, PTES, CVSS, NIST

Programming: Python, JavaScript, PHP, Bash/Shell Scripting, PowerShell, Java, C/C++, Perl

Operating Systems: Kali Linux, Parrot OS, Ubuntu, Windows Server, Android

CERTIFICATIONS

Microsoft: Azure Security Engineer Associate (AZ-500)

Google: Certified Cybersecurity Professional

SecOps Group: Certified Network Pentester (CNPen), Certified Blockchain Practitioner (CBP), Certified Network Security Practitioner (CNSP)

HackTheBox: Certified Penetration Tester Level I – Dante Pro Lab

PROJECTS

- ICS/SCADA Cybersecurity Lab** | *Vagrant, VirtualBox, pymodbus, Flask, Ligolo-ng* 2026
- * Designed and deployed a 4-VM lab simulating an ICS/OT plant network (10.10.2.0/24) with intentional security misconfigurations for attack-defense research.
 - * Configured a Modbus TCP server (ICS-SCADA VM), Flask/Nginx HMI with intentional command injection, SMB file server with capture flags, and Raspberry Pi sensor simulation.
 - * Implemented Ligolo-ng tunneling for seamless red team pivoting across the segmented network.
- Personal Home Network Security Lab** | *pfSense, Suricata IDS, Nessus* 2024
- * Configured firewall rules and an IDS to monitor and alert on anomalous traffic across a multi-device home network.
 - * Conducted regular vulnerability assessments and applied timely patches, maintaining a hardened baseline.

EDUCATION

VTU University Bangalore, India
B.E. in Computer Science & Engineering 2025

COMMUNITY & CONFERENCES

Community: OWASP Bangalore Associate | DEFCON Member | Google Developer Groups Member | The Hackers Meetup Organizer (Bangalore)

Conferences: Seasides 2025, Google DevFest 2024, Google Build With AI 2024, ContentStack Meetup 2024
